One of the better of these simple games. Can be fun for a few hours.. This is by far my most favorite Dash game! I really put some time into this game making sure that I accomplish all the goals efficiently. Like all Dash games, they have a simple formula but this one in particular shines the most as there is even a silly story to give you that extra motivation to play. Great for all ages!. 8/10 nice, but short casual game (I finish it in 5.6h).. my favourite game.. Very short game, I finished it in 4 hours. While playing, I didn't find the game to be that much fun, and I would not recommend it to anyone unless it was free.. **DO NOT RECOMMEND!** this game is nothing more than the PAYING version of the online game Dinner City. Dinner city is a free online game which is the SAME GENERAL CONCEPT of this game. Please, do not waste your money.. or your hard drive space on this POS. - HVK Gamer Review. Pain... I kept wondering why the F\$#% i bought this thing....

the Tycoon addition to the name definetly tricked me... but it was the first and only time.. Thx to this game i will always triple check a game if it has Tycoon added to the name....

Its stupid, plain silly. No challenge, yet no chill. Its just sad... seriously dont buy this think "oh manage a restaurant type o\ quote; nope nope, its more like a cellphone game, clicky clicky type of \ crap.

If i got this game for free i would seriously sue the mofuc\*&. If you like Time Mangement/Tycoon games this is a good one.. I like this game
